**From chip seal milling operations to heavy city street cleaning, the Stewart Amos Sweeper Co.'s Starfire S-4c can handle it.**

The S-4c is a heavy duty, 4.0yd<sup>3</sup> dual engine mechanical broom street sweeper mounted on a highly maneuverable cab over chassis. No CDL is required! It's as productive as sweepers mounted on larger trucks.

Manufactured with reliability and simplicity in mind, the S-4c is built for day-in and day-out continuous duty sweeping. The short wheel base chassis creates an extremely tight turning radius making it perfect for cleaning confined city streets, cul-de-sacs, construction sites, milling jobs, and open highways.

# Exclusive 3-Shaft Elevator

## BENEFITS:

**LONGER LASTING.** 3rd shaft ensures just the right amount of upper chain support and tension. Extends chains wear life and eliminates chain slapping.

**REDUCED MAINTENANCE COSTS.** 3rd shaft doubles amount of available chain adjustments. This and optimum upper chain support reduces chain wear and need to remove chain links by more than 50%.

**BETTER LOADING PERFORMANCE.** Maintains unrestricted debris movement. 3rd shaft maintains optimum chain spacing ensuring effective sweeping of large/bulky debris to minimize clogging.

Massive quad (4) "X" style lift scissors with four corner lift provide exceptional hopper stability especially when dumping wet, unbalanced or sticky debris.
